

MacSpeech Dictate

MacSpeech Dictate 1.5

As long time users of Dragon Naturally Speaking, we applaud the day when we can offer an exceptional solution for our Macintosh clients.

Mac users have awaited the arrival of a transcription software that rivals the accuracy of Dragon Naturally Speaking, and MacSpeech Dictate was built with that exact notion in mind. MacSpeech dictate is powered by Dragon from Nuance.

MacSpeech Dictate 1.5 is the latest edition. MacSpeech Dictate also comes in a Medical and Legal edition.

Accuracy

MacSpeech Dictate will astonish you with its accuracy. You simply talk and leave the recognition to MacSpeech Dictate. MacSpeech Dictate recognizes and understands 13 English language variations, nine with U.S. spelling and four with U.K. spelling. Training

MacSpeech Dictate provides astounding accuracy and productivity. With just minutes of training, you'll be using MacSpeech Dictate's superior capabilities. Commands Instead of using your mouse to select menu commands or your keyboard to type shortcuts, just speak a command. MacSpeech Dictate executes it for you. What's more, MacSpeech Dictate understands key commands. With the 'Press The Key' and 'Press The Key Combo' commands, you can enter specific keys and even keyboard modifiers like Command, Option, Shift, and Control. That makes you more productive and MacSpeech Dictate more intuitive. What could be better? Documents

MacSpeech Dictate works great with most text documents, whether they were created with MacSpeech or not. MacSpeech Dictate can read a document's contents, or a portion of it, that you can then navigate and edit the document throughout. Functionality

Microsoft Suite, iWork, Adobe Photoshop, QuarkXPress, and much more. MacSpeech Dictate always works great with Apple's applications, including Mail, iPhoto, iChat, Safari, and plenty more. Our Promise

MacSpeech Dictate includes everything you need to be instantly productive as soon as you start using it, including a high quality headset microphone.
